DETAILED ACTION

Information Disclosure Statement

Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

The examiner requests to provide the exact publication date for the article by Eom, "A Study on a new Broadband 180° Phase Shifter using the Network with Great Phase Dispersive Characteristics" (published by The Korea Electromagnetic Engineering Society).

Claim Objections

Claims 1-13 are objected to because of the following informalities:

In claim 1, line 15, and claim 10, line 2, "among" should be changed to – between--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, line 2, " Z_{me} " and " Z_{mo} " have not been clearly defined (are they refer to the impedance characteristic of the main transmission line?) and line 3, "the electrical length θ_c " lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-13 are rejected under 35 U.S.C. 102(a) as being anticipated by Eom et al. ("Broadband 180° Bit Phase Shifter Using a New Switched network").

Eom et al. (fig. 1 and equations (6)-(8)) discloses the identical phase shifter as the applicant's claimed invention.

Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sharma and Schiek et al. disclose a phase shifter suing coupled lines.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seungsook Ham whose telephone number is (571) 272-2405. The examiner can normally be reached on Monday-Thursday, 8:00AM-5:00PM.
